LETTER OF RECOMMENDATION

I take great pleasure in recommending **Rohitha Kalla** for her admission into the Master's program at your prestigious university. I have handled courses of UTILISATION OF ELECTRICAL ENERGY and POWER SYSTEM OPERATION AND CONTROL. As a **Professor**, I take this opportunity to evaluate her knowledge.

I found her very much interested in actively participating in all the department events. As the head of student chapter IEI in VVIT, I have observed her works closely during the monthly events. She is one of the active participants and won many prizes for her innovative thoughts. Her presentations were always unique among all the submissions. Rohitha always tries to integrate the lectures with practical experiments.

During one of my interactions with her about future accomplishments, she told me of her interest in doing her Master's. Her zeal to apply all the learned concepts in their real life and expanding her knowledge through higher studies and research abilities is one of the strong reasons in recommending her.

I am sure that she possess all the requirements of a mere prospective student and your university will be the best place for her to fulfill all her desires and improve her existing skills. So, I sincerely recommend her for admission to your university and provide her with the requisite financial aid and assistantships. I wish her every success in her future endeavors.
