LETTER OF RECOMMENDATION

As the **Head of the department**, it gives me great pleasure in recommending **Alekya Santoshi Gayitri Maddu** who is aspiring to pursue her Master's in Computer Science from your esteemed university. I have known her for four years and have been her course mentor for POWER SYSTEM ANALYSIS AND ELECTRICAL DISTRIBUTION SYSTEMS. She is always active and endowed with good technical skills.

As a student, she is up to the time in completing her work and is diligent. Her ambition is well justified by her academic performance throughout the under graduation program. She ranks **one among the top 15 students in our department**. From my interactions with her and classroom discussions, I could discern that she has a keen interest in pursuing her Master's. Alekya is always been an active member during her undergraduate studies and used to actively take part and co-ordinate in all department and cross-department events. She is one of the active members in organizing and participating in technical and cultural events during the national fest conducted every year.

Alekya has been an exceptional student who is very much fascinated to know about new developments in science and technology and keep her updated from time to time. Personally witnessed how she made her team prepare for the project reviews as one among the judges.

Based on her academic performance and all the above qualities, I strongly recommend her in the strongest terms for admission to the graduate program at your university with financial aid and assistantships. If there is any further detail you would like to know about this candidate, please contact me by email or by phone.

(Dr. A. Venkata Naresh babu)
