### **LETTER OF RECOMMENDATION**

I take immense pleasure in recommending one of my outstanding students **Alekya Santoshi Gayitri Maddu** for the Master's Program in Computer Science at your esteemed university. I have tutored her in courses of POWER ELECTRONICS, ELECTRICAL AND ELECTRONICS MEASUREMENTS, and POWER SEMICONDUCTOR DRIVES. I can say that she is desirous and her drive to do things by going out of her way makes her an outstanding student. What sets her apart from other students is, she is always inquisitive and is driven to learn things and apply them to the lectures in class.

Her zeal and desire to secure knowledge are mostly observed in my discussions with her. During her final year, I **mentored her for their major and minor projects** of "Power Transmission system design – ATC improvement in the regular and deregulated environment" where she impressed me with her problem-solving skills and was a quick learner.

The way she handled her team of five members and maintained a bridge between the teachers and her classmates was laudable. She also assisted me in organizing an event in our department during the national fest conducted every year. In one of my interactions regarding her life ambition, she revealed her interest in pursuing her Master's.

Given all these attributes, I have no hesitation in recommending Alekya to your coveted university with requisite financial aid and assistantships. As an international student, I genuinely believe in Alekya's capability and am sure that she adds great value to your university.

Please do not hesitate to contact me using the information on this letterhead.

  
(Dr. I. Luke John Baktha Singh)

Professor  
Electrical & Electronics Engineering  
Vasireddy Venkatadri Institute of Technology  
Nambur (V), Pedakakani (M), Guntur-522508.
